Summary

Data-driven Product Designer with expertise in UI/UX design, user research, and data analytics, focused on creating intuitive and impactful digital experiences for mobile and web platforms. Skilled in transforming user insights and complex ideas into modern, accessible, and high-performing products through strong visual design, interaction design, and prototyping. Adept at collaborating with cross-functional teams to deliver user-centered solutions that align with business goals.

SKILLS

INDUSTRY SKILLS AND TOOLS

- Design Research, User Interface Design, User Experience, Data Analysis, Interaction Design, Wireframing, Prototyping, Graphic Designing, Video Editing, Visual Story Telling.
- Figma, Photoshop, Excel, MySQL, Power Bi, Premiere Pro, HTML, CSS, Python Programming.

SOFT SKILLS

Excellent communication, Teamwork, Visual Story Teller, Receptive Feedback, Patient, Empathetic, Creative thinking, Problem solving, Critical Thinking, Data-driven decision making.

EXPERIENCE

PRODUCT DESIGNER, *LAZY LOGIC LIMITED* 11/2023 – Present
ACCRA, GHANA

- Designed intuitive interfaces for DoronPay, focusing on seamless onboarding and smooth transaction experiences.
- Created the Trofice mobile app and Trofice Admin Dashboard, improving commuter flows and enabling efficient internal operations.
- Conducted user interviews and field research for Trofice to validate features, refine user journeys, and improve usability.
- Collaborated with cross-functional teams to deliver wireframes, prototypes, and design systems that accelerated development and improved product consistency.

WEBSITE DEVELOPER, *AFROPOP EXPERIENCE.* 06/2025 – 08/2025
NEW YORK, USA

- Designed and developed the Afropop Experience website, showcasing African music, artists, and events.
- Created an engaging and user-friendly interface, optimizing navigation and content discovery.
- Implemented responsive design, ensuring seamless performance across desktop and mobile devices.

PRODUCT DESIGNER, *FUELME* 08/2024 – 11/2024
ACCRA, GHANA

- Designed the end-to-end user experience for FuelMe, a BNPL fuel payment platform, including the mobile app and brand logo.
- Developed intuitive flows that allow users to buy fuel instantly and pay later with a seamless and secure interface.
- Collaborated closely with stakeholders to refine requirements, optimize user journeys, and align the product with business objectives.

- Delivered a clean, user-centered design system that supports flexible fuel payments and improves overall customer convenience.

PRODUCT DESIGNER, *GHARTISANS - YOUTH EMPLOYMENT AGENCY (YEA) GHANA.* 01/2024 – 09/2024
ACCRA, GHANA

- Led the end-to-end design of GHartisans, including the customer app, artisan app (GHartisan+), and the admin dashboard.
- Created intuitive user experiences tailored to artisans across multiple vocational fields.
- Collaborated with YEA officials, trainers, and users to refine workflows and ensure platform effectiveness, including conducting presentations to stakeholders at the YEA Head Office.
- Delivered a functional, user-centered system that connects artisans to customers while supporting YEA's operations.

PRODUCT DESIGNER, *YEATRAIN - YOUTH EMPLOYMENT AGENCY (YEA) GHANA.* 08/2023 – 10/2023
ACCRA, GHANA

- Led the end-to-end design and development of YEATrain Ghana, a government mobile app under the Youth Employment Agency, featuring three user interfaces —Trainees, Master Trainers, and Project Officials—streamlining vocational training and mentorship in fields like Carpentry and Hairdressing.
- Designed with users in mind, delivering intuitive and accessible experiences while integrating comprehensive training resources for stakeholders with varying technical proficiency.
- Enhanced professional expertise in multiple vocational domains, refining design processes and deepening subject-matter knowledge to ensure project success.

EDUCATION
