SUMMARY

Data-driven Product Designer with expertise in UI/UX design, user research, and data analytics, focused on creating intuitive and impactful digital experiences for mobile and web platforms. Skilled in transforming user insights and complex ideas into modern, accessible, and high-performing products through strong visual design, interaction design, and prototyping. Adept at collaborating with cross-functional teams to deliver user-centered solutions that align with business goals.

TOP SKILLS

Industry Skills And Tools

- Figma, Photoshop, Excel, MySQL, Tableau, Premiere Pro, HTML, CSS, Python Programming, React Native, Angular JS, Vibe Coding, Claude AI.
- Design Research, User Interface Design, User Experience, Data Analysis, Interaction Design, Wireframing, Prototyping, Graphic Designing, Visual Story Telling.

Soft Skills

Excellent communication, Teamwork, Receptive Feedback, Patient, Empathetic, Creative thinking, Problem solving, Critical Thinking, Data-driven decision making, Reliable and Resourceful

EXPERIENCE

Product Designer and Developer, *Greenbrain Technologies* 06/2026 – Present
Greater Accra Region, Ghana

- Redesigned the existing Mariseth Farms management dashboard to improve usability and functionality, while introducing new features including farm geofencing, satellite farm mapping, and real-time weather information.
- Also designed the accompanying mobile application, creating a more comprehensive digital platform for monitoring and managing farm operations

Product Designer and Developer, *Greenbrain Technologies* 05/2026 – 08/2026
Greater Accra Region, Ghana

- Designed and developed VoltGo, a mobility platform featuring dedicated rider and customer mobile applications alongside an admin dashboard.
- Led the UI/UX design across all interfaces and handled the frontend development using React Native for the mobile applications and Angular for the admin dashboard, ensuring intuitive and seamless experiences across the platform.

AI Powered Data Analyst Intern, *Excelerate* 05/2026 – 06/2026
United States

- Performed data cleaning, analysis, and visualization using Excel, SQL, and Python, identifying trends and patterns to generate actionable insights and support data-driven decision-making.

Product Designer, *Lazy Logic Limited* 01/2024 – 09/2024
Greater Accra Region, Ghana

- Led the design and development of GHartisans, a dual-platform application suite that connects artisans trained by the Youth Employment Agency (YEA) in Ghana with customers seeking their services

User Interface Designer, *Lazy Logic Limited* 08/2023 – 10/2023
Greater Accra Region, Ghana

- Spearheaded the design of YEATrain Ghana, a government mobile application under the Youth Employment Agency, creating intuitive interfaces for Trainees, Master Trainers, and Project Officials across vocational training programs.
- Designed user-friendly experiences and integrated training and mentorship materials to meet diverse stakeholder needs.

Product Designer, *FUELME* 08/2024 – 11/2024
Greater Accra Region, Ghana

- Designed the end-to-end user experience for FuelMe, a BNPL fuel payment platform, including the mobile app and brand logo.
- Developed intuitive flows that allow users to buy fuel instantly and pay later with a seamless and secure interface.

PROJECTS

Bigluxx, *Co-Founder and Product Designer* 03/2026 – Present

- Designed the BigLuxx beauty and wellness platform, focusing on seamless discovery and booking of beauty services.
- Created user flows and interfaces for connecting customers with beauty professionals based on services, location, pricing, and availability.
- Designed features supporting beauty professionals, students, and aspiring apprentices in showcasing their skills and attracting clients.

Churchmann, *Co-founder and Product Designer* 02/2026 – Present

- Designed a church management platform to streamline administrative and member management processes.
- Created intuitive user flows and interfaces for managing members, events, services, and church activities.
